

Making smart metering attractive

Ecosummit

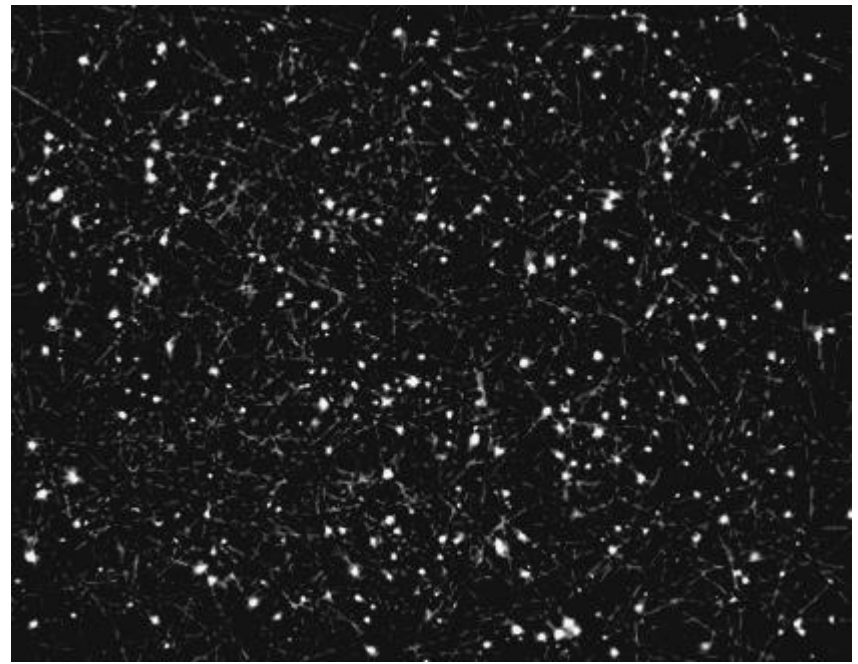

Berlin, 27.04.2016

Vision

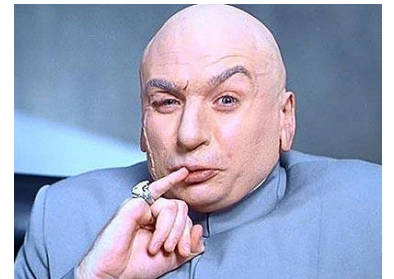

From this ...

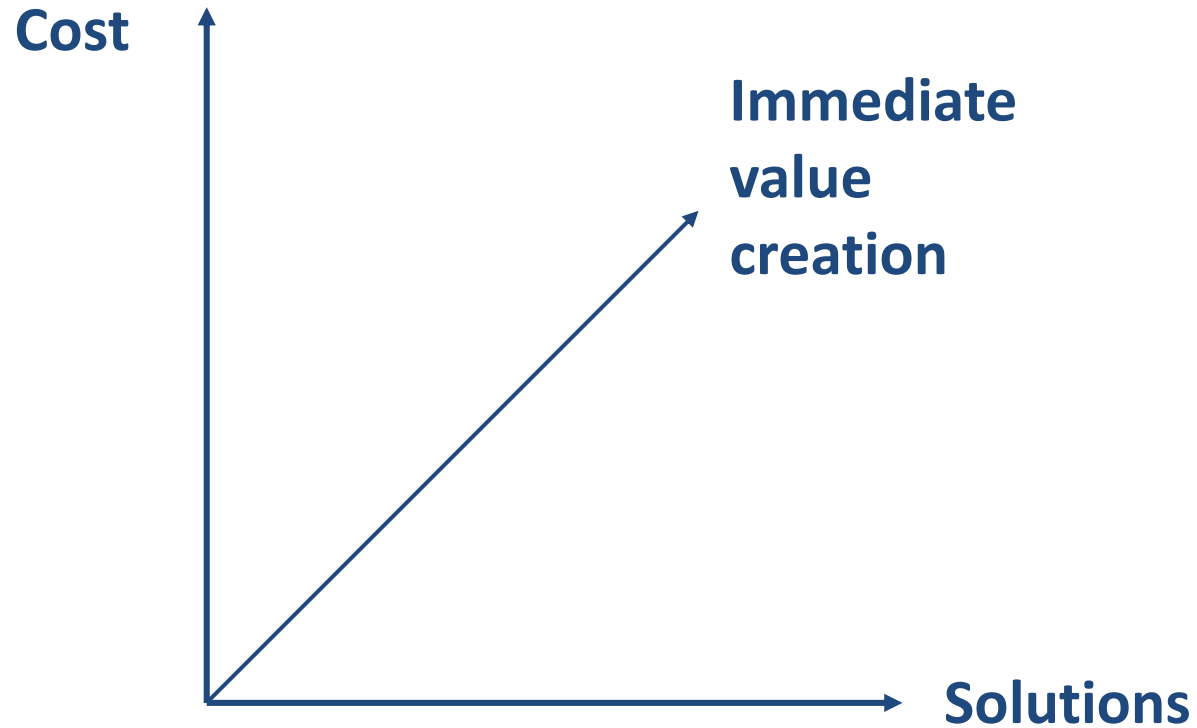

... to this

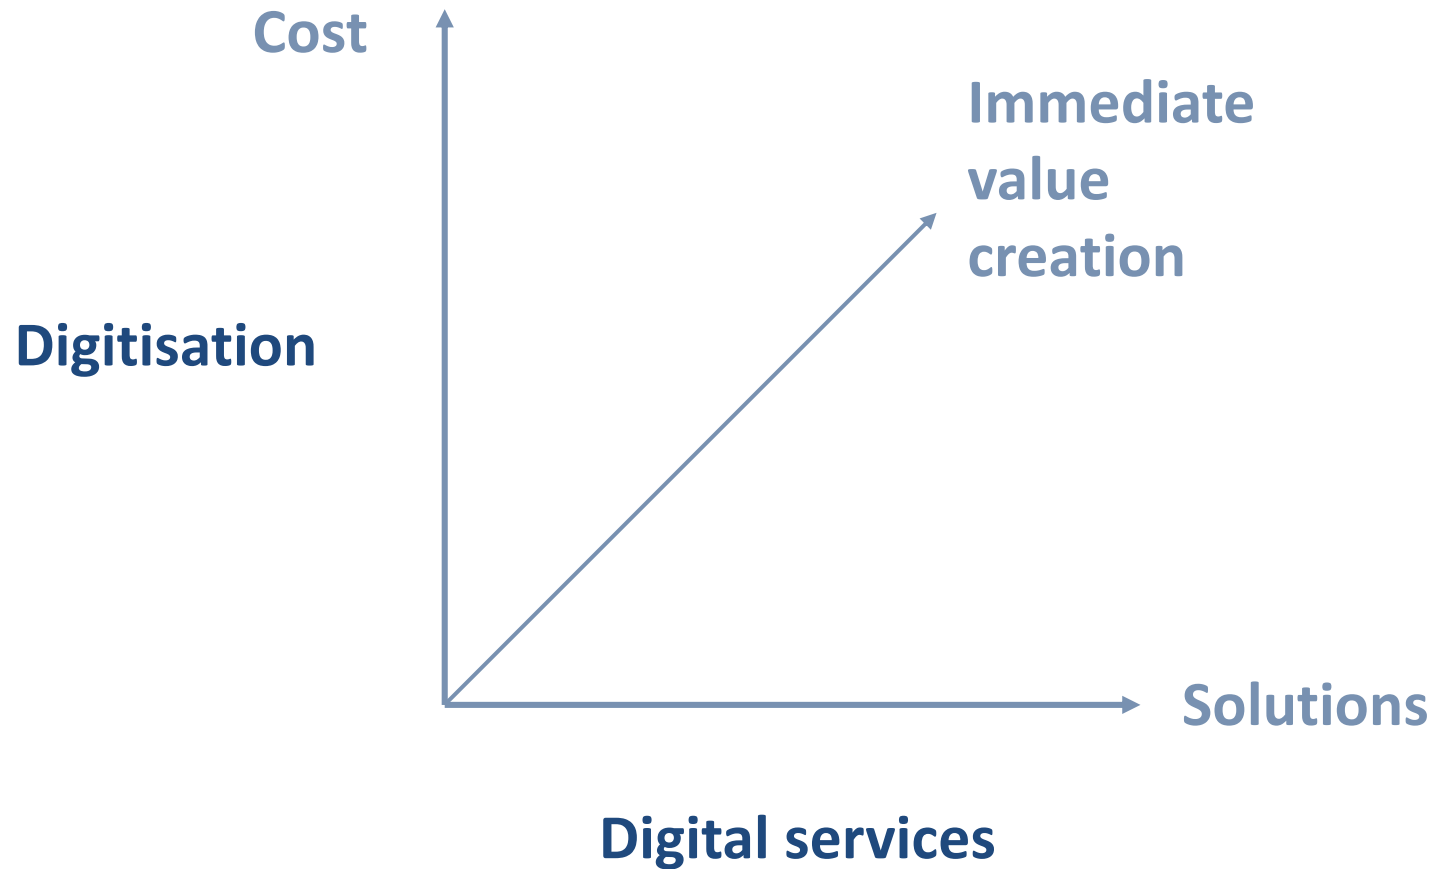

**Global
annual investment of
\$26.5 billion
by 2025**

Pain point

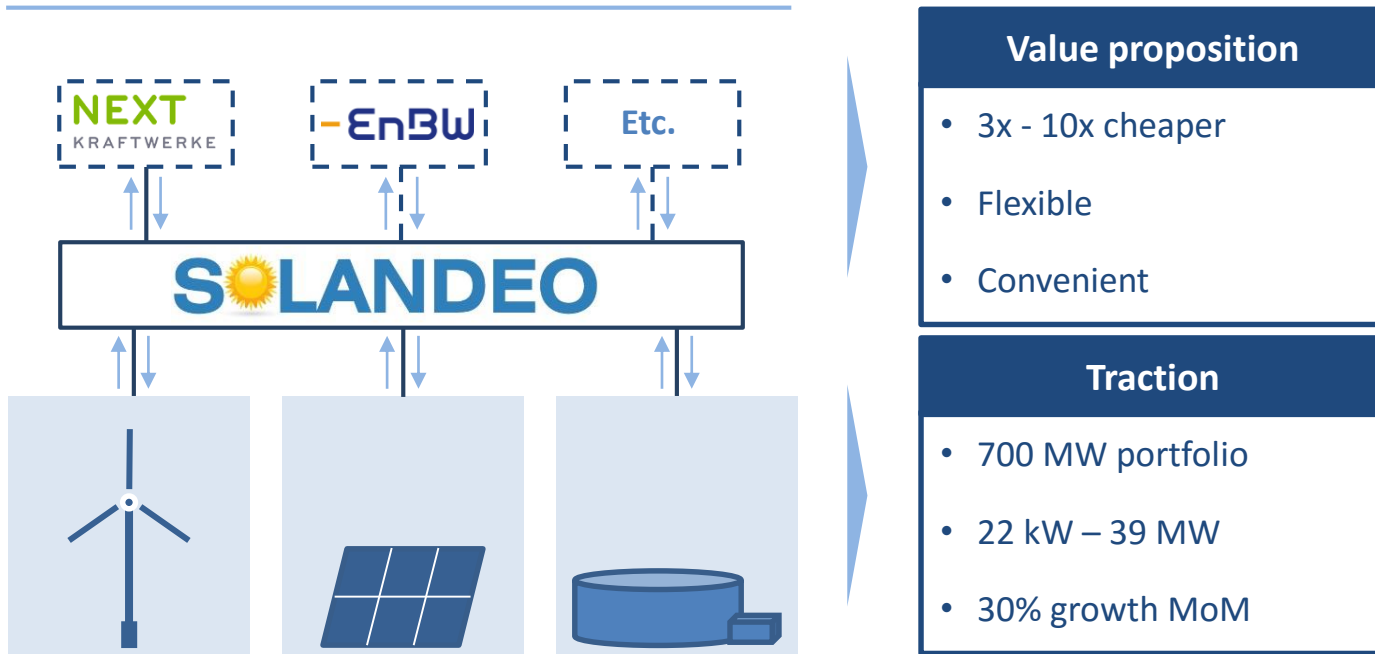

Solution

Example

Automatic integration of renewable assets into virtual power plants with real-time metering and power control

- **Autarchy**
- **Flexible tariffs**
- **Direct marketing**
- **Balancing energy**

Services for utilities
