Empowering consumers
with an individualised insurance

ENERFY

A person's hands are reaching out from the open window of a dark-colored car. The hands are positioned as if feeling the air or touching a surface. The background is a composite image featuring a white grid pattern overlaid on a landscape of green hills and a dark, rocky area. The entire scene is framed by large, overlapping green geometric shapes.

Reducing the world's CO2 emissions by 100 million tons per year*

*If 30% of the target group used Enerfy. Calculations by the WWF
and the Swedish Energy Agency
