

Climate-KIC

Start-up showcase

Ecosummit London, 11 October 2016

Climate-KIC is supported by the
EIT, a body of the European Union

Our background

Climate-KIC was created by the European Institute of Innovation & Technology (EIT) in 2010 as part of the EU's Horizon 2020 programme.

Horizon 2020 is the biggest EU research and innovation programme ever, with nearly €80bn funding in 2014 to 2020.

The mission of the EIT:

- » Increase European sustainable growth and competitiveness
- » Reinforce innovation capacity of EU Member States
- » Create the entrepreneurs of tomorrow and prepare for the next innovative breakthroughs

Our purpose

Climate-KIC is the Europe's leading public private partnership addressing climate change mitigation and adaptation.

Our **Mission**

We bring together, inspire and empower a dynamic community to build a zero carbon economy and climate resilient society.

Our **Vision**

To enable Europe to lead the global transformation towards sustainability.

Our offer

- Educational programmes for students and professionals
- Acceleration programmes for cleantech start-ups
- Innovation projects for our partners

Our value propositions

Climate-KIC offers membership of a European community that creates tomorrow's low carbon economy and climate resilient society.

Our partner community

We have 30 core partners, and 200 partners in total, who support delivery of our programmes and shape the strategic direction of Climate-KIC.

Our locations

Our six geographies are the hubs of our pan-European presence. This is where we put innovation into practice and build our partnership community.
